

Agile Software Development (Selling Agile)

Objective: Create a PowerPoint presentation addressing one of the following topics. You will present your research and solution to the class. All team members must participate in putting the presentation together and delivery.

1. **Selling Agile to a client or internal stakeholder group**
 - a. Benefits
 - b. Challenges or restrictions
 - c. Solutions to make this work in globally distributed teams
 - d. How to transform an organization to utilize Agile software development
2. **How to properly plan a sprint and release (grouping of sprints)**
 - a. Be sure to include a framework to calculate sprint capacity (numerically)
 - b. Include all tasks required to prepare for the sprint (i.e. key meetings with stakeholders, etc.)
 - c. Include all tasks required to execute the sprint

Group size: 4-5
3. **Format:** PowerPoint
